

[illegible]

The Boston Herald is a noted exponent of the "open door" theory of the cause of any change happening to the United States in consequence of this change in the administration. It says that the "open door" theory was the only one of the many theories of the worthy members of Congress who warned us that we would come from Canadian consolidation to American consolidation, and that we would be strengthening their strength, and we wish their theory to be the only one. It says that we are not to be disappointed, possible success under their new administration will be the work so well as to justify the most sagacious of our statesmen, the most sagacious of their number. In due time they will become a nation, and a great one, and they will be the only ones who will be able to tell us that they will be themselves wisely and liberally in regard to all questions."

THE "GRIEVANCE."—This atomer has been brought into Tai's dry dock. The water has been turned out, and the atomer has been ascertained that the chief injury which has been received is forward, under the paddle.

MONTREAL TELEGRAPHIC COMPANY.—An advertisement has been rendered in the Montreal Herald, and the company has been ordered to stop the publication of the advertisement on the 1st of June. This reduction is very general, embracing range from the 1st of June to the 1st of July.

Escape of a Convict.—A young convict named O'Brien was caught on Tuesday night while working at the "Big Rock" penitentiary farm. He was employed with carpenters and others of the prisoners at the farm, and had been in the employ of the institution since a reward had been offered by the Warden for his apprehension. O'Brien is the first convict who was sentenced at the state prison for two years. He was convicted for stealing a saddle, for which a slight additional sentence was recorded against him.

The New York Herald continues to publish a series of articles on the subject of the present state of preparations by the Penitentiary for the conquest and annihilation of Canada. The article of the 10th inst. says that the soldiers and 30,000 more are anxious to back these efforts.

Did the telegraph operator add two or threeiphers to the number, by way of a joke?

There is a rumor that the only one to be executed of the Mexican Empire is now in possession of the Americas; namely, Mexico and Vera Cruz.

Little girl six years old, daughter of John Walter, of Chicago, strayed from home

body made for her in the city. *His dead body* as it varied on the prairie, on the flat, on the hill, on the shore.

5 A Paris restaurant announces that a five franc *Paris* (minimum) gold piece is concealed in one of every hundred sausage exposed for sale. The restaurant is famous because it has become somewhat extraordinary. A performer having adopted a similar method of increasing the sale of soap, was protesting for the right to be allowed to continue his practice of administering his invention, but he soon ascertained that he had no ground for action.

6 The strawberry season is over in Ohio. The strawberry season is abundant and cheap. What will be ripe in a month, corn is five or six inches high, and potatoes are in the ground.

7 The House of Commons has adopted the clauses of the *Reform Bill* providing for more liberal extension of the franchise.

8 The bill containing the *Reform Bill* of the House of Commons in Ireland has been passed by the Lords.

9 The House of Commons has adopted in the *Reform Bill* a clause which extends as far as an extension of the franchise goes; but

The same time, important part of the measure, viz., the re-organization of the Government has informed Governor Seymour, of Victoria, that one of the first measures brought before the Canadian Legislature will be the re-organization of the Confederation to all the British North American territories.

BULL—A correspondent of an American paper writes from London, August 9th, that at the Paris Exhibition, called it the Bull man of industry. As they contemplated the magnificent Bull King and his subjects, the fairer Paris was attributed to the same cause.

"**PUNCH**" ON GYRES.—The following is *punch's* hit on the modest American inventor, Cyrus W. Field: "The American Parliament have passed a bill that Mr. Field, who has been elected to the House of Commons by the City of London, shall receive the electric telegraph between England and the United States, and has ordered a gold medal to be struck in honor of him." *Punch* would be the last man to deny that *Punch* would be the last man to deny that *Punch* did it. We are

space called the Atlantic Ocean, but we are told that he invented the cable, and that he was the first of a long line of solitary experimenters who have been endeavoring to span the Atlantic with a cable. The cable portended the cable which is now laid. It was carried in this one horse rig from Newburgh to Ireland, and having provided the cable with a horse, the cable was attached to the *Great Eastern* by his unaided arms, lifted the rope on board and coiled it to the deep with his own hands. This feat was done in Newfoundland, and the great steamer, and then ran on by constitution, and never sat down or drew a breath more until he had dispatched the cable to the other side. But in consequence of the ignorant prejudice of the world, the cable was not the modern success, as the cable is now, but the work of the Gih-Glam, Elliott, Anderson, Canning, and the two more who stood by with their hands in their pockets, and saw the American ports open to the world. Any person who would give the ground on which this cable was laid, would not be the owner of the cable rate. But we would not ask the question if it would hurt American

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The left edge of the page is bound into a dark, possibly black, inner cover material. There is no text or other markings on the page.

New York, June 1. — The Herald

petition for the pardon of Jeff. Davis
presented with Paul Bagley, and is signed
as:—"Done in the name of our Lord
as Christ, by Paul Bagley, missionary
in Japan, China, and elsewhere." At-
tached to it is the following, which is
signed by John T. Monroe, Mayor of New
Orleans, W. L. Sharkey, of Mississippi,
and others:—"Whereas, the God of Bat-
tle has decided against the Confederacy,
and it is dead, we therefore earnestly
request the late President thereof to accept

Belleville Markets and Crop Prospects.
The receipts of Grain are very small, with-

General alteration in our quotations, the first year. The price of wheat has ruled for some time. The prime cause for inflation in the wheat crop has been the drought, which has been seen from the following quotations: New York *Tribune* of the 24th May, must be seen from the following quotations: In Georgia, and North & South Carolina, the wheat crop is extremely well, and the harvest will commence about the middle of June. The wheat crop in Kentucky and Tennessee is well, and the harvest will commence about the middle of June. The quality ruled in these States is the first year. The accounts of the Fall grain in this vicinity are most favorable; both Rye and Wheat are fresh and green, and never gave better before of an abundant yield.

There is complaint of a backward season, but there has been no complaint of Spring wheat, and the crop is well. The wheat, chest, peas, oats buckwheat, corn and roots are all well, and the crop is well. The wheat, chest, peas, oats buckwheat, corn and roots are all well, and the crop is well. The wheat, chest, peas, oats buckwheat, corn and roots are all well, and the crop is well.

Since making the above report Flour has declined to \$9.50 for Spring and \$10.50 for all Wheat, silver.

We quote—

Flour—Fall wheat, retail, (silver,) \$10.50. —
—Spring do. — \$9.50.

Fall Wheat—Millers have given \$2.
Spring Wheat—good sample—\$1.75.
Bakery, 55 to 60c.
Corn—50 to 55c.
Peas 60c. (silver.)
Rye, 75c. do
Oats, 50c. do
Rutter, 11 a lb. (silver.)
Buckwheat,—60c do

CHEESE, 11 a 12c

THE FENIANS.

Special Correspondence to the Herald.

Buffalo, May 27.

The situation is unchanged since last

Friday. Unusual quietness reigned in

the city, and all outward appearance is

calm. The Fenians are active as men

as who are on the eve of great events.

All the halls in the city are crowded

with men every night, who spend their

hours in drilling. During the day

they follow their usual avocations, talk

little, and when asked what the Fenians

are doing, they invariably reply: "Nothing

particular." The Fenians are active as

BRISTOL'S
Sugar-Coated Pills

PURELY VEGETABLE

The need of a safe and perfectly reliable cathartic, or purgative medicine, has long been felt by the people and the faculty, and

As a source of great satisfaction to us, the TRI-TOL'S VEGETABLE PILLS, a potent and powerful cathartic, combines all the great qualities of the most agreeable family cathartics. They are made from the common drugs of common other pills, but are prepared from the very finest quality of medicine roots, herbs and plants, the active principles, or parts that contain the medicinal value, being chemically separated from the inert and useless portions, that contain no virtue whatever. Among these medicinal agents we may say **PODOPHYLLIN** which has been proved to possess a most wonderful power over the

nation with LEPTANDRIN and other big
 valuable vegetable extracts and drugs, com-
 posed a purgative Pill that is greatly ap-
 pealed to any medicine of the kind ever offered to
 the public. BRISTOL'S VEGETABLE PILLS
